Key Feature

Fantastic 16:9 4K resolution (3840 x 2160 pixels)

The FW-43X8370C, FW-49X8370C, FW-55X8570C, FW-65X8570C and FW-75X8570C produce over 8 megapixels. That's four times the resolution of Full HD, for a level of realism audiences will almost want to reach out and touch.

4K Next generation picture quality

Bring the incredible depth and quality of 4K resolution to your business with our BRAVIA Professional 4K LED TV, now available in 43", 49", 55", 65" and 75" screen sizes.

Superior displays designed for business

Advanced control, Hotel Mode, HDMI auto wake-up, 17/7 operation or embedded HTML5 for easy digital signage creation; BRAVIA 4K Displays are designed to suit all your professional needs so you always present a clear image.

Professional design

The FW-43X8370C, FW-49X8370C, FW-55X8570C, FW-65X8570C and FW-75X8570C offer all the technological performance and style you'd expect from BRAVIA. The 4K LCD panel produces four times the pixels of Full HD for outstanding picture quality, while the ultra-slim design enhances any corporate or retail environment.

Do more with Android

Personalize and control BRAVIA Professional Displays with Android. Create and download apps and use Googlecast to share content from a PC, tablet or smartphone through easy screen mirroring.

androidtv

Features

Picture Quality

4K

16:9 4K resolution (3840 x 2160 pixels)

With over 8 million pixels, a 4K resolution screen offers four times the detail of Full HD. Combined with the ability to manage 4K 60P (YCbCr4:2:0 8bit), it now produces a level of detail and realism beyond anything you've seen before.

Energy-efficient LED Backlight

The panel's LED backlight consumes less power than conventional fluorescent backlighting, reducing your running costs and allowing for an ultra-slim profile.

Simplicity

Installation friendly

The slim, stylish display offers a wide range of mounting options, is VESA compliant and integrates colour neatly into any corporate, retail or educational environment.

Control it with your smartphone

With one-touch mirroring you can also use your smartphone to swipe, enlarge, move and select content on the big screen for all to see.

Googlecast technology

Easily cast content from professional and personal devices on to the BRAVIA screen. You can cast from Android™, iOS™, or your laptop.

4K X-Reality PRO

Improve content quality with Reality Creation

This high picture quality engine takes Full HD content much, much closer to 4K Ultra HD quality. Whether it's a presentation to clients or engaging digital signage, you'll get the best picture possible.

Versatile control options

Easily control BRAVIA remotely – including on/off, input signal select and adjust volume – over IP via RJ45 by web API or via RS-232C (RS-232C control requires optional HDMI convertor box CBX-H11/1).

**Automatic on/off feature**

Easily programme your Sony BRAVIA with the On Timer feature to automatically turn the flat panel on /off.

Integrated media player

The timer function means BRAVIA displays are easy to programme. Play videos and other media content including 4K direct from USB flash memory or live streaming in a wide range of formats.

Full Personalisation

Built-in HTML5 for dynamic box-free signage

With BRAVIA Professional's built-in HTML5 platform you can create your own digital signage content, as well as send it to displays across the globe. You can include text, graphics, video and even live web feeds and IPTV content – with no dedicated hardware player needed only a BRAVIA display and Internet access.

**Interactivity options**

Turn your BRAVIA Professional display into an interactive touchscreen with U-Touch overlays. Designed to fit seamlessly onto the BRAVIA screen, it's easy to set up and allows 6 multi-touch points for greater interaction. Contact your local Sony dealer for more information.

Integrated IPTV system

It is now easy to stream any IP feed directly to the BRAVIA display without any set-top-box or players. Save costs and get interactive channels, video-on-demand, an interactive menu, video security, live streams or information with full customisation and no player required.

Smart, customisable displays

Easily create or download applications to customise the BRAVIA display for endless possibilities with Android.

androidtv

Hotel Mode

There's now more control to disable input or remote control, remove labels and block buttons; customise and store display settings and features, then copy them easily from display to display via USB flash memory.

Ideal for:

- Corporate presentation
- Digital signage
- Video conferencing
- Education

Bring the incredible depth and quality of 4K resolution to your business

PrimeSupport

All Sony Bravia Professional displays sold into the EU, Norway and Switzerland come supplied with a 3 Year PrimeSupport pack, offering unique services and benefits, including:

- Freephone telephone helpdesk support (00 800 7898 7898) in 5 languages.

- Receive a completely new replacement model rather than repair as standard.

In addition, optional PrimeSupport Plus packs can be purchased to add a 2 year extension of the standard 3 year PrimeSupport

and to give long-term assurance of expert support, technical assistance for 5 years from purchase date.
